

Dear valued partner,

Please note that effective June 1, 2021, new business and in-force policies for the Blue Vision product (SME Plan, Association Program, Global Plan and Express Plan) may include a rate adjustment based on the coverage selected. This adjustment was required to account for the rising costs of health care services and inflation. Please see the table below for a breakdown of the increase:

Blue Vision: Extended Health Benefit (Regular, Enhanced and Catastrophe Coverage), Prescription Drugs, Hospital Allowance, Hospital Allowance Express, Express Plan Health Package, Travel and Accidental Fracture	Up to 8%
Global Plan (prior to the 2005 changes - existing clients only): Prescription Drugs	Up to 15%

Existing clients will receive the increase on the renewal date of their policy.

The Blue Vision quotation tool will be updated on June 1, 2021. Below are the transition guidelines.

TRANSITION GUIDELINES

Applications signed before June 1, 2021		Applications signed as of June 1, 2021
Received by June 15, 2021 incl.	Received after June 15, 2021	New rates
Current rates	New rates	

If you have any questions, please contact [info-partners/1-800-361-2358](mailto:info-partners@bluecross.ca) (option 2, then option 1)

Thank you for your continued support,

Sasha Opacic
 Vice-President, Sales – Broker Channel
